## Cinema

### READY TO USE

TRANSFORM TV INTO HOME THEATER WITH SINGLE HDMI-CABLE

### AUTOMATIC

USE YOUR TV REMOTE JUST AS BEFORE

Cinema is a full home theater with its 3.1 speaker system. It brings a movie theater into your living room without any extra speakers or wires. Because the speakers are always optimally positioned, Vino Cinema fits in every space imaginable.

Since the integrated A/V-amplifier automatically connects to the device in use, its use requires neither remotes nor additional software – you will just use the TV or any portable device as you normally would.

### GENERAL
